

AFFORDABLE DOCUMENT MANAGEMENT SOLUTIONS

INSURANCE

A Smarter Way to Manage Your Business

Minimize Risk, Maximize Productivity

The insurance industry is known for being a paper-intensive environment that is riddled with complexity. Simply managing the documents that backup applications, renewals and claims are difficult for even the most efficient insurance offices.

Compounding the challenge of accessing and maintaining files are governmental and industrial regulations that dictate how long specific documents must be maintained. These regulations, combined with the volumes of paper consumed by insurance agencies, create a perpetual and costly storage problem. That is why many insurance agencies are looking for a smarter, simpler and more affordable way to run their business and comply with regulations.

Using Questys® Solutions' unique electronic document management system, insurance professionals can easily manage and maintain these seemingly endless paper trails. The speed and efficiency gained from deploying the Questys® Pro software solution can also improve customer service levels and help alleviate the hassle of compliance.

Improves Administrative Processes, Eases Compliance and Simplifies Customer Service

Efficient, Reliable and Easy-to-Use

The Questys Pro document management software enables insurance agencies to easily convert paper documents into secure and accessible electronic files that can be easily integrated and organized with spreadsheets or other electronic files. Moving from paper to electronic files helps insurance professionals improve office organization, claims management, and client satisfaction. With Questys Pro, insurance professionals reduce their risks and save valuable time, money and resources.

Through its secure database, Questys Pro helps insurance agents comply with document retention and regulatory rules set down by the insurance companies they represent, as well as state regulators. Because all relevant documents and records are stored in a secure database, an added benefit is complete disaster recovery.

The security features of the Questys Pro document management database allow multiple users access to the same file at the same time. This added convenience encourages stronger collaboration between agents, and makes doing business easier and more effective.

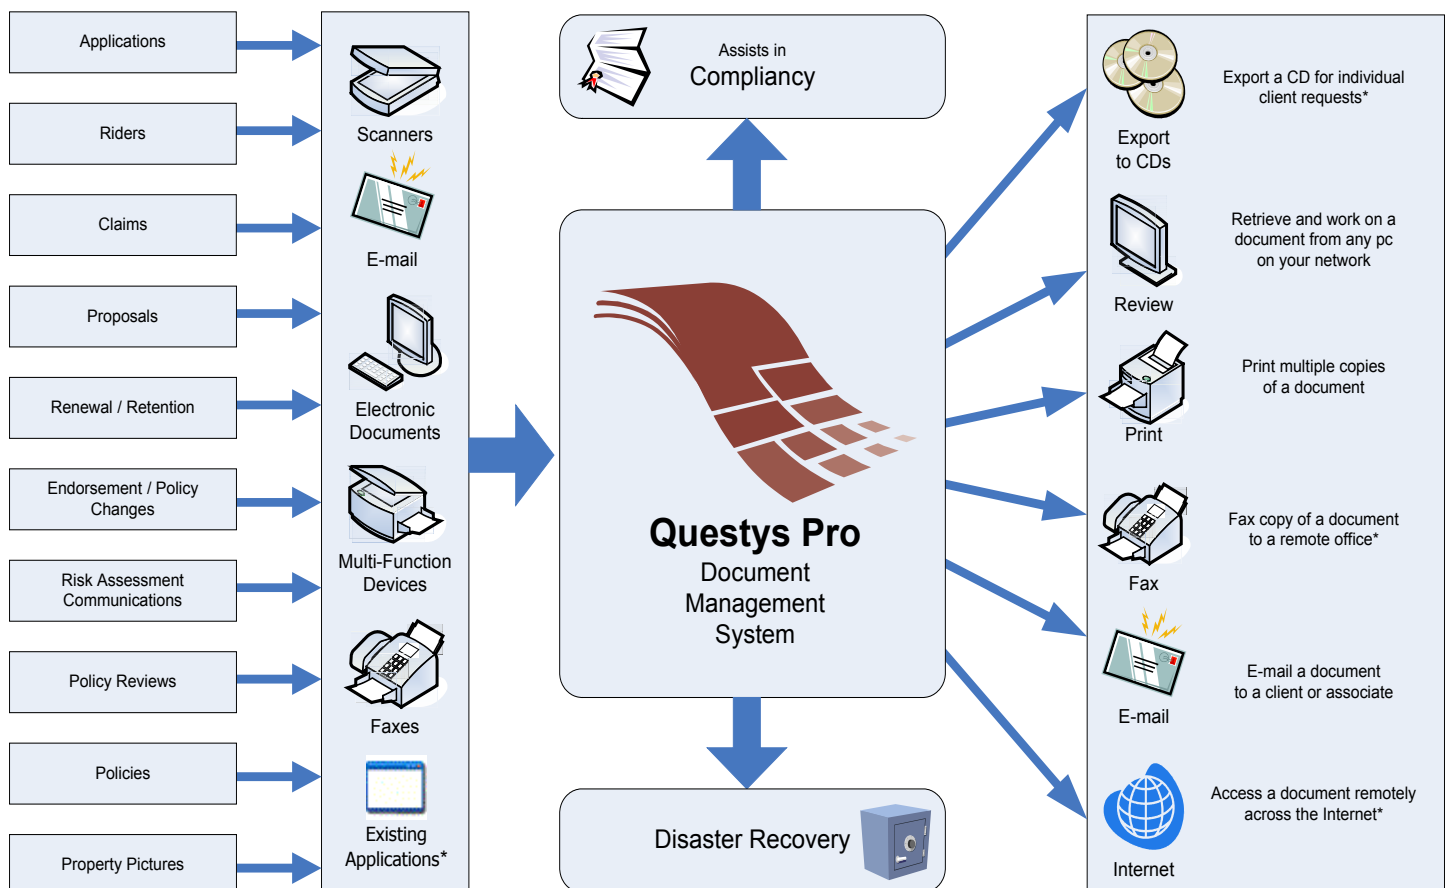

DOCUMENT MANAGEMENT FOR INSURANCE

The Questys Business Advantage *Save Time, Money and Valuable Resources*

With Questys Pro, insurance agents, adjusters and brokers can instantly find specific records within a client file by searching via document categories, keywords and even the OCR text of the document itself. This intuitive search capability saves users countless hours of searching for a specific file or reference.

Priced thousands less than competitors, Questys Pro is the ideal solution for insurance offices with limited budgets and IT resources. Questys Pro's feature-rich document management system provides:

- System-generated bar-code cover pages for scanned documents, and drag-and-drop functionality for electronic files to speed and simplify filing
- Keyword and full-text OCR searches instantly locate desired files and/or individual documents
- Ability to save directly to the Questys Database from Microsoft® Office, Outlook and other third party software applications
- Archive applications and reports directly from your customer management claims systems via Questys TIFF Image Printer
- Protect document integrity with revision and redaction functions
- Implement true backup/restore and disaster recovery plans that include paper-based files as well as electronic files
- Collaborate on files with version control, check-in/check-out and electronic sticky notes
- Comply with document retention rules
- Protect client confidentiality with password protection
- Access documents anywhere via secure remote Web access

*Additional software required.

Questys® Solutions Product Lineup

Questys® Pro Document Management Platform

Our suite of document management solutions easily scale to meet the needs of today's SMBs and Enterprises.

Questys Pro – Fast, Easy and Affordable.

This complete lineup of Questys' Pro document management software solutions are built exclusively for SMBs:

Questys Pro Standalone Edition

Easily scan, organize, protect and retrieve information electronically on a standalone PC.
